SUMMARY

Software developer with over 3 years experience

I am a diligent software engineer, eager to build innovative and cutting-edge business solutions for various problems around the world. I am a quick learner, willing to do everything possible to transform an idea into reality.

WORK EXPERIENCE

Lead Frontend Developer

GHYRATE

2019 - current

Key responsibilities included:

- Designing UI/UX
- Transforming UI designs to code
- Integration of API endpoints
- Maintaining and fixing bugs on the website

Achievements include:

- I wrote 100% of the codebase for the client-side
- I tutored and mentored a Junior developer to build QA features
- I provided important security recommendations to the backend team.
- I assisted in refining over 500,000 records in our database
- I designed UI components on Figma for the website
- I recommended features that will improve user retention and dashboard engagement
- I tutored and mentored a Junior developer to build QA features

Full stack developer

FLINCH

2020 - 2021

Key responsibilities included:

- Designing UI/UX for mobile app
- Developing an admin dashboard
- Integrating API endpoints for the dashboard and mobile app
- Creating and managing firebase backend
- Fixing bugs on the Dashboard and mobile app
- Integrating a notification service for the Mobile app
- Integrating a payment system with Paystack

Achievements include:

- I wrote 100% of the codebase for the Mobile, Dashboard and backend.
- I obtained a large understanding and experience with firebase which was quite unknown to me at the time
- I completed the MVP a month before the due date.
